4X6 SHEFFIELD STANDARD

- 1 in. x 1 in. rails
- $\frac{5}{8}$ in. pickets / $1-\frac{5}{8}$ in. picket spacing

A

B

C

Panel and Gates		Actual Size	Black Model #	SOS#
A	4x6 Sheffield Standard Panel	47in. H x 72-$\frac{5}{16}$in. W	73008840	548111
B	4ft. x 4ft. Sheffield Standard Straight Gate*	48- $\frac{1}{2}$ in. H x 46- $\frac{1}{2}$ in. W	73009495	548086
C	4ft. x 4ft. Sheffield Standard Arched Gate*	48- $\frac{1}{2}$ in. H x 46- $\frac{1}{2}$ in. W	73009492	548071

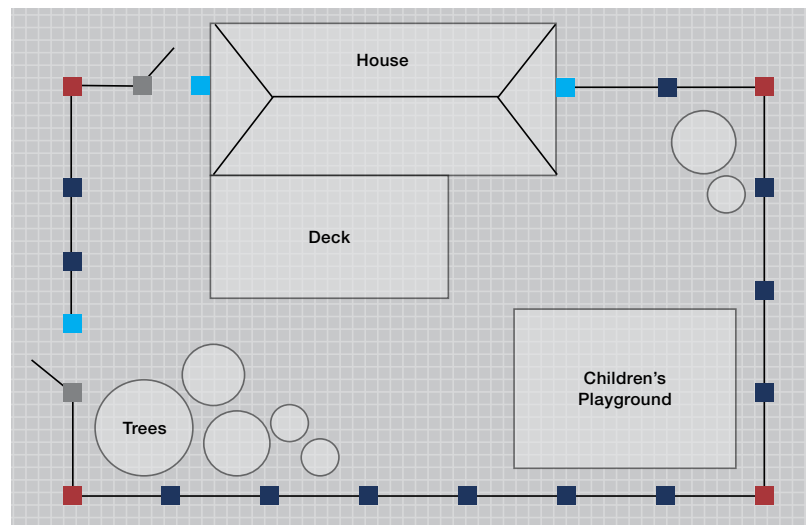

Posts		Black Model #	SOS#
D	2in. x 2in. x 70in. Line Post	73002255	384515
E	2in. x 2in. x 70in. Corner Post	73002256	384516
F	2in. x 2in. x 70in. End Post	73002257	384517
G	2in. x 2in. x 70in. Gate Post	73002258	384518
H	2in. x 2in. x 106in. Blank Post	73002392	384527

How to calculate fence materials:

1. Determine total number of lineal feet and subtract footage for gates
2. Calculate # of fence panels needed: Total lineal feet divided by panel width (feet) = total # of panels
Note: panels can be cut to shorter width if necessary
3. Calculate # of posts needed:
 - 1 post per panel + 1 end post to end the fence run
 - 1 end/gate post per gate (don't forget 2 post inserts for each gate)

Key:

- Line posts – use when connecting fence panels in a straight line
- Corner posts – use when connecting fence panels at a 90 degree angle
- End posts – use when ending a fence run
- Gate posts – use on the hinge side to support the weight of the gate
- Fence panels
- ∖ Gate
