## Let's get your DIY done. This will be easy.

## 6X8 BOLTON - WHITE

- 6 in. tongue \& groove boards
- $1-3 / 4$ in. $\times 5-1 / 2$ in. top \& bottom rails
- Aluminum reinforced bottom rail

|  | Posts and Accessories | Model \# | SOS\# |
| :---: | :---: | :---: | :---: |
| D | 5in. $\times 5$ in. $\times 108 \mathrm{in}$. Line Post - White (DE) | 73024020 | 666951 |
| E | 5in. $\times 5$ in. $\times 108 \mathrm{in}$. Corner Post - White (DE) | 73024022 | 666952 |
| F | 5in. $\times 5$ in. $\times 108 \mathrm{in}$. End Post - White (DE) | 73024021 | 666953 |
| G | 5in. $\times 5$ in. $\times 106 \mathrm{in}$. Gate Post Insert* | 73041348 | 1143443 |
| H | 5in. $\times 5$ in. New England Top - White | 73045003 | 1870861 |
| I | 4 oz. Tube Vinyl Adhesive | 73047688 | 1966202 |

$D$

H
*Required support for gate posts and strength for hardware connections.

## How to calculate fence materials:

1. Determine total number of lineal feet and subtract footage for gates
2. Calculate \# of fence panels needed: Total lineal feet divided by panel width (feet) = total \# of panels
Note: panels can be cut to shorter width if necessary
3. Calculate \# of posts needed:

- 1 post per panel + 1 end post to end the fence run
- 1 end/gate post per gate (don't forget 2 post inserts for each gate)
Key:
- Line posts - use when connecting fence panels in a straight line
- Corner posts - use when connecting fence panels at a 90 degree angle
- End posts - use when ending a fence

Check with local building department for code requirements run or on either side of a gate

- Fence panels
